

19th Real Time Conference

May 26th(Mon)-30th(Fri), 2014

Nara Prefectural New Public Hall, Nara, Japan

Deadline for abstract submission : February 17, 2014

APPLICATIONS INCLUDE

High energy physics, Nuclear physics,
Astrophysics and astroparticle physics,
Nuclear fusion, Medical physics, Space instrumentation,
Nuclear power instrumentation, Realtime security and safety,
General radiation instrumentation.

TOPICS

Front end fast digitizers, Realtime system architectures,
Intelligent signal processing,
Fast data transfer links and networks,
Trigger systems, Data acquisition,
Processing-farms, Control, monitoring and test systems,
Upgrades, Emerging realtime technologies,
New standards, Realtime safety and security,
Feedback on experiences, Realtime simulation.

WORKSHOP/TUTORIAL/SCHOOL

Workshop and Tutorials in Nara May 24th to May 25th
School for Realtime Systems in Osaka June 2nd to June 7th

ORGANIZERS

General Chair

Masaharu Nomachi, RCNP, Osaka University

Executive Committee

Stefan Ritt, PSI

Masaharu Nomachi, RCNP, Osaka University

Zhen'An Liu, IHEP

Ryosuke Itoh, KEK

Takashi Ichihara, RIKEN

Patrick Le Dû, IPN Lyon

Réjean Fontaine, Université de Sherbrooke

Local Organizing Committee Chair

Shuhei Ajimura, RCNP, Osaka University
